

May 2018 President's Newsletter

Another season has come and gone. Most of the Snowbirds are heading back to Northern locations. I hope everyone had a great time this season and a wonderful summer back home. Those of us left will balance playing early morning golf to avoid the 120 degree days, but will enjoy getting into our favorite restaurants without a one hour wait.

I would like to thank everyone for either attending or sending in proxy votes for our last General Meeting of the season. We did pass the changes to the Bylaws without any further discussion. The Board and General membership also approved Mike Budd as a replacement for Membership Chairman Ray Dorfman. No one can really "replace" Ray and the group will miss him as he and his wife Debra are looking for another location to better suit his health condition.

I received a lot of positive feedback on the email I sent out about those members that have been hampered by injuries and other health related issues. Let's be sure to keep these guys in your thoughts and prayers and keep in perspective how fortunate we all are.

It seems that a number of us like to both play golf and travel. I have recently received some information about 7+ day European River Cruises that incorporate 2-4 rounds of golf on some of Europe's premier golf courses. If you want any further information on this, let me know.

Thanks,

Joe Rutherford

President TLQMC
